Tom reminded the committee that the state archives holds over 200 million documents, photographs, maps, plans and other documentary materials. This morning we will feature our efforts to digitize those materials, but our online resources represent only a fraction of the totality of the collection. Tom also highlighted the 2017 Student Research Award competition, remarking that the student research awards for 2016 will be held on October 18, 2016 immediately following the Board of Regents meeting. Regent Tilles will be master of ceremonies.

CE (D) 1 - Increasing Online Access to Archival Materials

Maria Holden, Bureau Chief, State Archives provided a detailed look at online resources provided by the State Archives. Since 1995, the State Archives has had an active program of digitization, which creates electronic versions of records that are made
available for researchers online. The archives has created digital versions of photographs, maps, drawings and documents dating from the colonial Dutch period to present day. Holden Staff highlighted several significant research activities that have been made possible through online access to the collections of the Archives including resources for teachers that provide primary source materials, and curriculum materials relating to the documents and photographs. Keith Swaney, Archivist in the Archival Services unit of the State Archives provided an overview of the process of digitization, the decision making process for selecting materials, the benefits of digitization for research and the standards that are used to ensure that digital versions of materials fully capture all of the information.

CE (D) 2 - Archives Month Activities

Clare Flemming, Archivist in the Documentary Heritage Program reminded the committee that October is American Archives Month. Repositories across the state and nation hold special programs, make special exhibits, use social media or do other activities to recognize this month. Clare distributed a document that identified a few programs, both online and in person, that are happening in New York Repositories. Tom Ruller reported to the committee that if they had particular interests, staff would be happy to provide more information to members of the committee about events in their region.

The web site: www.dhpsny.org(link is external) provides a wide variety of resources and information about the program, specially designed for historical records repositories.

HIGHER EDUCATION

Your Higher Education Committee held its scheduled meeting on September 13, 2016. All members were present with the exception Regents Brown and Reyes who were absent and excused.

Action Items

Proposed Addition of Part 49 to the Commissioner’s Regulations Relating to the Authorization of New York Higher Education Institutions to Participate in the State Authorization Reciprocity Agreement (SARA) and the Approval of Out-of-State Institutions to Provide Distance Education to New York Residents.
The proposed amendment was discussed by the Board of Regents at its April 2016 meeting. A Notice of Proposed Rule Making was published in the State Register on May 4, 2016. Following the 45-day public comment period required under the State Administrative Procedure Act, the Department received comments on the proposed amendment. Your Committee discussed adding a new Part 49 to the Commissioner’s Regulations to authorize New York higher education institutions to participate in the State Authorization Reciprocity Agreement (SARA) and the approval of out-of-state institutions to provide distance education to New York State residents and voted that a new Part 49 be added to the Regulations of the Commissioner of Education, as submitted, effective September 28, 2016. Regent Johnson made a motion that Department staff report back to the Board in September 2017. All members voted in favor of the motion. The Department will review the proposed amendment in one year, and/or when the United States Department of Education promulgates regulations on postsecondary distance education, if earlier. HE (A) 1

Proposed Amendment of Section 80-5.4 of the Regulations of the Commissioner of Education Relating to the Employment of Substitute Teachers Without a Valid Teaching Certificate.

These regulations were adopted by the Board of Regents at its July 2016 meeting. In response to requests by members of the Board of Regents who raised the concern that the proposed amendment allows uncertified teachers to remain in substitute teacher positions for a lengthened period of time, the Board of Regents requested that the Department amend these regulations and create a “sunset provision” at its September 2016 meeting. As a result, while the current regulation allows uncertified teachers to work up to 90 days as a substitute teacher, the proposed amendment sunsets this provision after two years - June 30, 2018. In addition, the Commissioner agreed to seek information from school districts that educators found illustrated best practices and strategies for recruiting and supporting substitute teachers. The compilation of best identified practices provided by the districts will be shared with the Commissioner, Board and made available to all school districts. There was also a suggestion from a member of the Higher Education Committee that relevant data be collected to evaluate the effectiveness of the initiative. Following the 45-day public comment period, it is anticipated that the proposed amendment will come before the Board for permanent adoption at the December 2016 Board of Regents meeting. HE (D) 1

ACTION ITEMS

Your Committee recommends that paragraph (4) of subdivision (b) of section 100.6 of the Regulations of the Commissioner be amended as submitted, effective September 13, 2016, as an emergency action upon a finding by the Board of Regents that such action is necessary for the preservation of the general welfare in order to provide sufficient time for the Commissioner to approve work-readiness assessments for students to earn a NYS CDOS Commencement Credential on or after April 3, 2017.

MATTERS NOT REQUIRING BOARD ACTION

Update on Activities related to the Workgroup to Improve Outcomes for Boys and Young Men of Color – Regent Lester Young provided the Committee with an update on the work of the Workgroup to Improve Outcomes for Boys and Young Men of Color. The Committee discussed the Requests for Proposals (RFPs) associated with this initiative; (a) Teacher Opportunity Corps II (closed August 22); (b) Family and Community Engagement Program (closed August 26); and (c) My Brother's Keeper (MBK) Challenge Grant (deadline September 15). Regent Young also provided information on the eleven mayoral-led MBK communities in New York State. A convening of the statewide communities is being planned for early 2017.

2016 Grades 3-8 ELA and Math Assessment Results [P-12 (D) 1] – The Committee was provided with the results of the 2016 Grades 3-8 English language arts (ELA) and mathematics assessments. The results were released on July 29, 2016. While the 2016 tests and prior year’s tests are based on the same content standards and are similarly rigorous, the proficiency rates from exams administered prior to 2016 are not directly comparable to the proficiency rates for the 2016 tests because of the changes that were made to the 2016 tests. Nonetheless, the 2016 results are valid and reliable indicators of student proficiency in the tested grades and subjects. The Committee also discussed Not Tested and Test Refusal Data and the characteristics of the Test Refusal students.

Uniform Violent and Disruptive Incident Reporting System (VADIR) [P-12 (D) 2] – The Committee discussed proposed amendments to regulations relating to the Uniform Violent and Disruptive Incident Reporting System (VADIR). The New York State Safe Schools Task Force recommended that the Department “develop a new process and criteria for the Persistently Dangerous designation and a new set of definitions of incident categories for reporting using a School Climate Index. The reporting process for Dignity for All Students Act (DASA) and Violent and Disruptive Incident Reporting (VADIR) should be combined and renamed into one system that is not punitive and is reflective of the school climate and can be used for prevention and intervention.
purposes; also, that it includes positive measures and incorporates most improved schools.” As a result, the reporting categories were revised to reflect the following nine categories: 1) Homicide, 2) Sexual Offenses, 3) Physical Injury, 4) Weapons Possession, 5) Material Incidents of Discrimination, Harassment, and Bullying, 6) Bomb Threat, 7) False Alarm, 8) Use, Possession or Sale of Drugs, 9) Use, Possession or Sale of Alcohol. Principal Preparation Project
Presented to the
NYS Board of Regents

September 12, 2016
In fall 2015, SED applied for a grant from the Wallace Foundation to enhance school building leadership. The grant has five areas of focus:

1. Requirements pertaining to those who are seeking school building leader (SBL) certification
2. Requirements for programs that prepare school building leaders
3. Professional development, supervision, and evaluation for school leaders
4. A tool to help district managers select school building leaders
5. Adoption of revised Interstate School Leaders Licensure Consortium (ISLLC) Standards
This project engages stakeholders in efforts to:

• Review requirements related to the preparation of school building leaders

• Identify if improvements are needed (related to certification and program requirements, professional development, supervision, and/or evaluation)

• If warranted, forward recommendations to the Commissioner and Board of Regents for consideration and action

• Develop a tool to help districts identify, select, and place school building leaders
STAKEHOLDERS

• Teachers
• School building leaders
• Superintendents and District Superintendents
• School board members
• Deans and faculty at colleges of education
• Parents
• Civil rights organizations
• Our belief is that every student should have great teachers and a great school leader.

• Our mission is to develop and recommend to the Board of Regents policies that will support and enhance the preparation of school building leaders and the success of their students.
• We know technology, accountability, and changing demographics have created new demands on school leaders

• Practitioners in the field have expressed concern that the preparation of our school building leaders has not kept pace with these changes

• Many earn SBL certification in NYS, but too few who earn certification are ready to step into the position.
• Districts typically expend 80% (or more) of operating funds on people

• One of the most important decisions they face involves how they recruit, select, develop and retain effective school building leaders

• Yet NYS has not recently revised the requirements for the programs used to prepare school building leaders.

• Notably, in 2015 the National Policy Board for Educational Administration developed and the Council of Chief State School Officers copyrighted the “Professional Standards for Educational Leaders”

For reference, see:
• Educators who have an interest in the preparation of school building leaders (P-12 and higher education) routinely commit to continuous improvement.

• However, continuous improvement efforts are impeded because data to measure the effectiveness of leader preparation and the outcomes of students over time are sparse and of questionable quality.

• At issue is the accessibility of data as well as its comparability across individuals, institutions, and time periods. This makes it a challenge to accurately gauge program effectiveness and hiring decisions.
Requirements for individuals to earn **initial** School Building Leader certification:

- Three years of experience in classroom teaching or pupil personnel service (public or non-public school)
- A master’s degree
- Satisfactory completion of a NYS-registered, university-based graduate program for school building leaders that includes a full-time internship experience of at least 15 weeks in length
- Pass the NYS SBL exam
- Pass the Educating All Students (EAS) exam
