**Proposed Amendments to Sections 63.2, 63.3, 63.5 and 63.7 of the Regulations of the Commissioner of Education Relating to the Licensure Examination, Licensure by Endorsement and Continuing Education Requirements in the Profession of Pharmacy (Discussion)**

The proposed amendments to the Commissioner’s Regulations conform the licensing examination requirements for applicants for licensure as pharmacists to national standards and to provide the Department with flexibility to implement prospective changes
in examination standards. Based on the findings of a recent gap analysis of current examination requirements, the Department and the State Board of Pharmacy propose regulatory changes that would eliminate the Department-administered Part III examination as a specific requirement for licensure in New York. In furtherance of such goals and interests of public health and protection, the proposed amendments would also add a mandatory three credit compounding continuing education requirement for each triennial registration period to ensure that all pharmacists are adequately trained in compounding drug products and that they maintain this competency throughout their careers.

Proposed Amendment to Section 29.3 of the Rules of the Board of Regents and Sections 68.14 and 68.15 of the Regulations of the Commissioner of Education Relating to the Continuing Education Requirements for Professional Engineers, Land Surveyors and Professional Geologists (Discussion)
