**Reason(s) for Consideration**

Review of Policy.

## Proposed Handling

This issue will come before the Higher Education Committee for discussion at its December 2013 meeting. A copy of the proposed amendment is attached. A Notice of Proposed Rule Making will be published in the State Register on December 31, 2013. Supporting materials are available upon request to the Secretary of the Board of Regents.

## Background Information

Over the past two years, the Board of Regents has discussed the expansion of CTE programs in school districts and BOCES generally and of integrated credit allowance which will, in turn, create a greater demand for teachers certified in career and technical titles. At its November 2013 meeting, the Board of Regents was presented with recommendations that would support existing and anticipated demand for teachers certified in CTE titles.

## Expand the Transitional A certificate to the Technical CTE Titles

The first recommendation presented to the Board of Regents at its November meeting was to expand the availability of the existing Transitional A certificate, which is currently available only for the trade subjects, to the technical titles. The technical titles are: Mechanical Technology 7-12, Electrical-Electronic Technology 7-12 and Computer Technology 7-12, as well as Family and Consumer Science CTE subjects (Food and Nutrition, Textile and Design, Human Services and Family studies).

A second recommendation presented to the Board of Regents was to add an additional pathway for college professors with two years of satisfactory postsecondary teaching experience in the CTE certificate area to be substituted for two years of work experience in the CTE certificate area sought. This change will provide an additional pathway for college professors teaching in a CTE related field at the college level to receive a Transitional A certificate, an Initial Certificate and a Professional Certificate provided they meet all other requirements.

Currently, the Transitional A certificate allows a person with an associate's degree and two years of satisfactory experience in the career and technical education subject area for which a certificate is sought, or a candidate with at least four years of satisfactory work experience in the career and technical subject, to teach for three years while completing the requirements for an initial certificate. The candidate must also have completed the required workshops, a fingerprint clearance and must have a three-year employment commitment with a New York State public or nonpublic school or a BOCES.

By adopting these two recommendations, we are providing opportunities for individuals with specific technical and career experience to obtain a teaching certificate in their area of expertise. This will help to increase the supply of qualified, certified

teachers in the career and technical education field to satisfy the increasing demand for those teachers.

### Technical Amendments

The proposed amendment also makes several technical amendments within the definition of a Transitional A certificate in regulations to eliminate references to outdated certificate titles (temporary license, provisional license).

### Recommendation

Not applicable.

### Timetable for Implementation

It is anticipated that the proposed amendment will come before the Full Board for adoption as a permanent rule at the March 2014 Regents meeting. If adopted at the March Regents meeting, the proposed amendment will become effective on March 26, 2014.
