#### **Proposed Handling**

#### **Procedural History**

A Notice of Proposed Rule Making will be published in the State Register on December 27, 2017. Supporting materials for the proposed amendment are available upon request from the Secretary to the Board of Regents.

## **Background Information**

Section 80-3.4 of the Regulations of the Commissioner of Education outlines the requirements for candidates seeking a professional certificate in the classroom teaching service. One of these requirements is that candidates must complete three years of teaching experience, and as a part of that experience, participate in a mentored program during the first year of employment. Mentoring programs provide support for new teachers in order to ease the transition from teacher preparation to practice. The goals of mentoring programs include increasing the retention and skills of new teachers.

## **Proposed Amendment**

Requiring teachers to complete a mentoring program during their first year of teaching is critical for their professional development. The current regulation requires mentoring to take place during the first year of employment. However, some teachers are hired late in the academic year, giving them only until the end of the academic year to engage in a mentoring program. The proposed amendment would change the mentoring requirement from the first year of employment to the first 180 school days of employment, which is equivalent to an academic year. This change would enable new teachers who are hired late in the academic year to have the same amount of time to participate in a mentoring program as new teachers who begin teaching on the first day of the academic year. The proposed amendment is also consistent with one of the policy recommendations in the draft New York State ESSA plan.

If adopted at the March 2018 meeting, the proposed amendment will become effective on March 28, 2018.
