SUBJECT:
Designation of Regents Physician Shortage Areas

DATE:
February 1, 2018

AUTHORIZATION(S):

SUMMARY

Issue for Decision

Should the Board of Regents approve the attached list of shortage areas (Attachment A) for the 2018 Regents Physician Loan Forgiveness Program?

Reason(s) for Consideration

Required by State statute.

Proposed Handling

This item will come before a joint meeting of the Higher Education and Professional Practice Committees for approval at their February 2018 meeting.

Procedural History

Not applicable.

Background Information

In 1987, the Board of Regents approved a system for identifying and designating shortage areas for purposes of the Regents Physician Loan Forgiveness Program. In
September 1995, the Board made a decision to update this shortage area list once a year. Shortage area categories include:

- Health Professions Shortage Areas (HPSAs)
- County Non-Primary Care Specialty Shortage Areas
- Hospital Non-Primary Care Specialty Shortage Areas
- Mental Health Professions Shortage Areas
- State Facility Physician Shortage Areas
- Facilities Providing Services to Special Populations Shortage Areas

Each year, the New York State Department of Health recommends updates to the list of Regents physician shortage areas. These updates include modifications to the following Health Professions Shortage Areas (HPSAs): Primary Care, Facility Physician, State Facility, and Mental Health Professions.

This year, there are discrepancies in shortage areas at the federal and State levels, which have delayed an updated list of shortage areas from being posted. Resolution of these issues is not expected to be completed in time to allow physicians to apply to the Regents Physician Loan Forgiveness Program for the 2018 application period using the updated list of shortage areas. Therefore, the Department of Health has recommended that the Department move forward using the list of shortage areas from the 2017 program year to determine awards for the 2018 Regents Physician Loan Program so that the program can continue without further delay.

Recommendation

VOTED: That the Board of Regents approve the use of the 2017 list of Regents physician shortage areas for purposes of the 2018 application cycle, based on a recommendation from the Department of Health.

Timetable for Implementation

If approved by the Board of Regents, the 2017 list of shortage areas will be used for purposes of the 2018 application cycle for the Regents Loan Forgiveness program and this will be communicated to the field immediately.

GENERAL INFORMATION REGARDING
REGENTS-DESIGNATED SERVICE SHORTAGE AREAS (RPSAs),
COUNTIES, AND CENSUS TRACTS
IN NEW YORK STATE

How to use the Regents Physician Shortage Area (RPSA) Listing

Primary Care Regents Physician Shortage Areas by County: This section, one of several within the book applicable for primary care physicians, is applicable to primary care physicians only, and lists shortage areas by Service Area and Population Group within the indicated county.

Examples: To be eligible for any program for which Regents shortage areas pertain:

1. A primary care physician working in Bronx County (Borough) and practicing in Medicaid Eligible - Morris Heights would have to be working in a census tract (C.T.) (e.g., 53, 235.01, 237.03, etc.) listed in this section. To identify the C.T. of a practice site address, you can go to the following website: http://www.ffiec.gov/Geocode/default.aspx. Enter the address of the site. Click on “search” and note the “Tract Code.” If the address is located in an underserved area, the C.T. number will be listed in one of the Service Areas or Population Groups in the appropriate county.

2. A primary care physician working in Chautauqua County would have to work within the Service Area specified towns or census tracts (C.Ts) of Rural Chautauqua SA in the towns of Arkwright, Charlotte, Chautauqua, Cherry Creek, etc., for example, or provide services to a Low-Income population group in the towns of Busti, Carroll, Ellicott, Kiantone, Poland or the City of Jamestown.

3. A primary care physician could also work in listed facilities (e.g., Metropolitan Correctional Center in New York county), which are applicable for primary care physicians only, as indicated within the appropriate counties.

Facilities Eligible for Primary Care and Mental Health Shortage Area Designation by County: This section lists individual facilities, by county, applicable for either primary care or mental health physicians.

NY State Operated Facilities Designated as Regents Physician Shortage Areas for Primary Care Physicians and Psychiatrists: This section lists New York State facilities applicable for either primary care physicians or psychiatrists.

Additional Facilities Designated as Primary and Non-Primary Care Shortage Areas for Service to a Special Population: This section is applicable to both primary and non-primary care physicians.
Non-Primary Care Shortage Areas by County: This section is applicable only to non-primary (specialist) physicians who have incurred, and seek to repay, obligated service under the Doctors Across New York Loan Repayment or Practice Support Programs.

Hospitals Eligible for Primary Care and Non-Primary Care Shortage Area Designation: This section is applicable to both primary and non-primary (specialist) physicians who have incurred, and seek to repay, obligated service under New York State Regents Physician Loan Forgiveness Award Program.

Regents Psychiatric Shortage Areas: This section is applicable to psychiatrists who have incurred, and seek to repay, obligated service under New York State Regents Physician Loan Forgiveness Award Program.

NOTE TO PRIMARY CARE PRACTITIONERS AND PROVIDERS

The National Health Service Corps loan repayment program is available to primary care physicians, nurse practitioners, physician assistants and midwives interested in serving in federally designated underserved communities in New York State. For more information about the National Health Service Corps, call 1-800-221-9393, or visit the following website:  http://nhsc.hrsa.gov/
