MOTION FOR ACTION BY FULL BOARD

Madam Chancellor and Colleagues: Your P-12 Education Committee recommends, and we move, that the Board of Regents act affirmatively upon each recommendation in the written report of the Committee’s deliberations at its meeting on April 9, 2019, copies of which have been distributed to each Regent.

MATTERS NOT REQUIRING BOARD ACTION

ESSA Financial Transparency Requirement [P-12 (D) 1] – Your Committee was presented with an overview of the implementation of the Every Student Succeeds Act Financial Transparency Requirement. Over the past twelve months, the Department has undertaken a rigorous approach of outreach to stakeholders to develop a report template and uniform guidance in submitting expenditure data. Preliminary guidance will be published later this spring with a comment period in place for school districts to review and recommend amendments and improvements. Final guidance will be issued following that period, with all reporting expected to be completed by early 2020.

Consent Agenda

The Board of Regents will take action on the following consent agenda items at their April 9, 2019 meeting.

- BOR Authorized Revision to the Roslyn Yalow Charter School.
- Petition of the City School District of the City Oswego for Consent to Exceed the Constitutional Debt Limit.

P-12 EDUCATION/HIGHER EDUCATION JOINT MEETING

Your P-12 Education and Higher Education Committees held their scheduled meeting on April 8, 2019. All members were present.

Perkins V State Plan Development [P-12/HE (D) 1] – the Committee was provided with an update on the development of New York State’s Perkins V Plan as required in the Carl D. Perkins Career and Technical Education Act of 2006 as amended by the Strengthening Career and Technical Education for the 21st Century Act of 2018. Efforts are underway in
the development of New York’s one-year transition plan, due to the U.S. Department of Education (USDE) on May 24, 2019. The transition plan will outline priority areas to be developed in consultation with general and career and technical educators, child welfare, workforce development, business and industry groups, and other community stakeholders. After consultation with these groups, the New York Perkins V Four-Year Plan will be developed for submission to USDE in the Spring 2020. Staff will provide data to the Regents as requested.

Regulations of the Commissioner of Education Related to Requiring Study in Language Acquisition and Literacy Development of English Language Learners in Certain Teacher Preparation Programs and in the Individual Evaluation Pathway to Certification for Certain Certificate Titles [P-12/HE (D) 2] – the Commissioner discussed regulations related to requiring study in language acquisition and literacy development of English language learners in certain teacher preparation programs and in the individual evaluation pathway to certification for certain certificate titles. The proposed regulations require teacher preparation programs in certain subject areas to provide at least three semester hours of study in language acquisition and literacy development of ELLs and at least three semester hours of study in language acquisition and literacy development of all students. The total required semester hours on language acquisition and literacy development would remain the same at six semester hours in §52.21. However, this revision ensures that at least three of the currently required six semester hours in language acquisition and literacy development are dedicated to the language acquisition and literacy development of ELLs. It is anticipated that the proposed amendment will be presented to the Board of Regents for adoption at its September 2019 meeting.

NY’s ESSA Plan Focus

The plan, developed over two years, and with extensive consultation with stakeholders across the state, seeks to support schools to ensure that:

- Positive school environments are culturally responsive and sustaining.
- Instruction is emphasized in the core subjects, not just in language arts and mathematics.
- All students have opportunities for rigorous coursework.

The Civic Readiness Task Force is:
✓ Researching best practices already happening in schools across NYS
✓ Developing an effective practices rubric that can be used as a tool to help schools become more democratic
✓ Working on a methodology to recognize “Schools of Civic Readiness”

The Task Force will be making recommendations to the Board of Regents regarding:
1. Definition of Civic Readiness.
2. Criteria for the Seal of Civic Readiness.
3. Creation of Capstone/Portfolio Based Assessments.
4. Recognizing districts that demonstrate excellence in civic readiness through democratization of policies and practices.

This year, school districts reported that more than 11,200 students earned a diploma through one of the new pathways. This is a 13-percent increase over last year.

Note: some students may have met the requirements to earn a diploma in more than one pathway. Each student is only reported as completing one pathway so they are not counted as graduating more than once.
Identifying Opportunity Gaps

To ensure equity across the state, we need to increase opportunities to support success for students.

Part of this effort will be to explore which schools offer opportunities for:

- Multiple graduation pathways
- Participation in My Brother’s Keeper programs
- Access to high level coursework
- Early College High School programs
- PTECH programs
Title IV Grants

The State Education Department awarded $28.5 million in Student Support and Academic Enrichment (SSAE) grants to 38 school districts.

The SSAE program is intended to help districts, schools, and communities:

Supporting Evidence-based Instructional Practices

Evidence shows that clinical preparation is

- A key factor in teacher retention.
- Related to positive effects on student outcomes.

To support implementation of ESSA, the Department is in the process of recommending to the Board of Regents the following amendments to Commissioner’s Regulations:

- Extend Student Teaching from current minimum of 40 days to at least 14 weeks.
- Require Institutions of Higher Education (IHE’s) to develop MOUs or similar collaborative agreements with their P-12 partners.
- Have programs provide candidates with opportunities to practice teaching skills identified in the New York State Teaching Standards.
- Expect school-based and university-based teacher educators to have 3 years of teaching experience and engage in professional learning focused on providing effective clinical supervision.

- Increase transparency of school-level information;
- Make school-level information easier for parents and the public to understand;
- Provide the opportunity to increase involvement through increased understanding; and,
- Allow parents to advocate for their children, schools, and education.
What is the Financial Transparency Requirement?

ESSA requires that beginning with data from the 2018-19 School Year, State Report Cards must include:

“The per-pupil expenditures of Federal, State, and local funds, including actual personnel expenditures and actual non-personnel expenditures of Federal, State, and local funds, disaggregated by source of funds, for each local educational agency and each school in the State for the preceding fiscal year.”

Vision for School Improvement

“The State’s role in School Improvement will be rooted in helping schools identify and implement the specific solutions that schools need to address their specific challenges.”

- New York State’s ESSA PLAN, page 79

School Improvement is a Partnership

State’s Role in Supporting School Improvement

- Help schools identify and implement the specific solutions that address their specific challenges.
- Support schools differently based on their improvement strategies and the extent of gains over time.
- Provide more support to schools’ improvement efforts.
Overview: Needs Assessment Process

To move towards school-specific solutions, the State Education Department works with schools to understand how they currently operate and provide schools with feedback and guidance to support their improvement efforts.

The Diagnostic Tool for School and District Effectiveness (DTSDE) process involves a team visiting the school, speaking to stakeholders, and working closely with the principal to provide technical assistance.

Team Members Include:

- NYSED Representative
- Outside Educational Expert
- District Representative
- Special Education specialist
- Bilingual Education specialist
Feedback consists of three components:
1. Guidance provided at the end of the visit.
2. Technical Assistance offered where appropriate throughout the visit.
3. Full report identifying areas that can be improved and could be considered for the school’s annual improvement plan. The report also includes a section that captures stakeholders’ perspectives of areas of need.

The Department is working in partnership with schools.
• Joint classroom visits with principal.
• Technical assistance offered where appropriate while on-site.
• Next steps provided at the end of the visit include ideas informed by discussions with students, staff, and parents. These are developed with the principal and agreed to by the principal.
What the Field Says About DTSDE

Since 2016, NYSED has surveyed principals following their DTSDE visit to monitor implementation and ensure that the field is finding the process to be beneficial. Below are the results of the principal surveys completed by 176 principals following their DTSDE visit:

- **91%** of principals gave the highest or second highest score when asked if they could use these recommendations to move the school forward.
- **88%** of principals indicated they had a clear understanding about the team's rationale behind the recommendations, and how this rationale is based on the evidence generated during the visit.
- **82%** of principals indicated that they felt their input with the final recommendations had been taken into consideration “to a great extent.”
- **80%** of principals gave the highest or second highest score when asked if the process was successful in providing technical assistance and deepening their understanding of their school.

The process has been modified slightly this year to ensure that it is more responsive to the needs of schools and ensure that schools find the guidance to be suitable and achievable. As a result, some additional survey questions have been added to the principal survey. Of the 42 principals who have completed a survey following their 2018-19 visit:

- **88%** of principals indicated that they felt the process was responsive to their needs.
- **88%** of principals indicated that the feedback left will be things the school will be successful at completing.
The DTSDE on-site Needs Assessment is one part of a larger reflection of school needs that is done when developing the annual School Comprehensive Education Plan (SCEP).

Collaborative Problem-Solving Leads to School Improvement

Parents, Students, and Staff of identified schools surveyed annually

Parents, Student, and Staff focus groups through the DTSDE process

Increased Stakeholder Involvement in Development of School and District Improvement Plans:
- CSI plans will not be approved without documentation that stakeholders, including students, have been involved.
- TSI schools must involve representatives from identified subgroups.

Increased Flexibility in Strategies for School and District Improvement:
- Schools and districts have flexibility to align their priorities toward specific goals.
- Schools are now expected to schedule their activities sequentially and identify what success will look like midyear.
Each newly identified Target District, Comprehensive Support and Improvement (CSI) school, and Targeted Support and Improvement (TSI) school will receive Title I School Improvement funds in 2018-19.

2018-19 Funds are intended to support required activities including, but not limited to:

- Surveying teachers, parents, and students;
- Providing increased opportunities for collaboration, with allowable expenses including 1) stipends for staff to collaborate on the development of the school improvement plan; 2) child care costs to promote parent participation in the development of the plan; and 3) translation costs to promote parent participation in the development of the plan;
- Participation in Target District Institutes;
- Participation in Regional Training for Schools Receiving NYSED-led DTSDE support visits;
- Participation in the DTSDE review process and/or needs assessment; and
- Accelerated implementation of improvement plan activities in current year.

NYSED plans to award additional improvement funds in 2019-20 to support the implementation of identified school improvement activities.
