SUBJECT: Emergency Adoption of Proposed Regulations Relating to the Program Registration Requirements for Teacher Education Programs and the Restructuring of Adolescence Level Teacher Certification for Students with Disabilities

DATE: October 5, 2010

AUTHORIZATION(S):

SUMMARY

Issue for Decision

Should the Board of Regents adopt as an emergency measure the proposed amendments relating to the program registration requirements for teacher education programs and the structure of adolescence level students with disabilities certification?

Reason(s) for Consideration

Review of Policy.

Proposed Handling

The proposed amendment is submitted to the Higher Education Committee for adoption as an emergency measure at its October 2010 meeting. A statement of facts and circumstances justifying the emergency action is attached.

Background Information

At its October 2009, March 2010 and September 2010 meetings, the Board of Regents discussed and conceptually approved changing the students with disabilities adolescence level teacher certification structure and adding requirements to all teacher education programs to ensure that all teachers are better prepared to work with students with disabilities.

The proposed amendment will require registered teacher education programs for **all** teachers to include:

- a minimum of three semester hours in educating students with disabilities to ensure that all teachers are better prepared to skillfully collaborate with other teachers and to teach students with disabilities. The three semester hour requirement shall include study in at least the following areas:
 - categories of disabilities;
 - identification of and remediation of disabilities;
 - the special education process and state and federal special education laws and regulations;
 - effective practices for planning and designing co-teaching and collaboration with peers;
 - individualizing instruction; and
 - applying positive behavioral supports and interventions to address student and classroom management needs.
- a requirement that 15 of the 100 clock hours of field experience focus on students with disabilities. For Transitional B programs, 6 of the 40 clock hours of field experience shall focus on students with disabilities.

The proposed amendment will also change the structure of the current students with disabilities certificates and registered programs.

- Candidates will no longer be able to enroll in special education teacher preparation programs that lead to Students with Disabilities 5-9 Generalist and Students with Disabilities 5-9 and 7-12 content specific certificate titles after February 1, 2011.
- A Students with Disabilities in Adolescence 7-12 (Generalist) certificate title will be created. For candidates seeking this certificate, the candidate shall complete six semester hours in mathematics, science, English language arts and social studies within their content core and have sufficient pedagogy to teach these subjects. Teachers holding this certificate will be eligible to be employed to teach in supportive roles such as consultant teachers, resource room service providers and integrated co-teachers.
- Candidates holding the Students with Disabilities in Adolescence Generalist certificate will also have the option of obtaining an extension to this certificate, to authorize the teacher to be employed as the special class teacher of students with disabilities in a specific subject area, upon the completion of certain requirements. To obtain an extension in a specific subject, the teacher shall complete 18 semester hours of study or its equivalent in the subject area of the extension sought. For social studies, the candidate shall complete the 18 semester hours through a combination of study in United State history, world history and geography. This, coupled with passing the Content Specialty Test in the specific subject area, will allow candidates to earn an extension to the base certificate to permit the teacher to be employed as the special class teacher of students with disabilities in that subject. Any district or BOCES that employs a

candidate holding this extension must provide weekly collaboration between a certified general education content specialist in the subject area of the extension and the teacher holding the extension, with at least one period per month co-taught by both teachers. The length of the required weekly collaboration and co-taught lesson will be defined at the local level.

- For students with disabilities teachers employed by a school enumerated in article 81, 85, 87, 88 or 89 of the Education Law or a special act school district that educates only students with disabilities and who cannot meet the regulatory requirement must submit a plan acceptable to the Department with a description of the mentoring and collaboration the teacher will receive.

The proposed regulation also establishes requirements for individual evaluation for the new Students with Disabilities in Adolescence Generalist certificate title by requiring candidates seeking a certificate in this area to complete, among other requirements, six semester hours in mathematics, science, social studies and English language arts and have sufficient pedagogical training to teach these subjects. The proposed amendment also phases out individual evaluation for the Students with Disabilities 5-9 Generalist certificate and Students with Disabilities 5-9 and 7-12 content specific certificates by requiring candidates to apply for these certificates prior to September 1, 2011 and to complete the requirements for such certificate before February 1, 2012 to obtain certification through individual evaluation in these titles.

Colleges will be permitted to register new dual certificate teacher education programs that lead to both a 7-12 content specialist (for example, a general education teacher of mathematics) and a students with disabilities 7-12 adolescence generalist.

Recommendation

VOTED: That subdivisions (b) and (c) of section 52.21 of the Regulations of the Commissioner of Education are amended; subdivision (a) of section 80-3.7 of the Regulations of the Commissioner of Education is amended; subdivision (a) is amended and subdivision (c) is added to section 80-4.2 of the Regulations of the Commissioner of Education; that subdivisions (a), (b), (c), (d) and (e) are amended and that a new subdivision (n) be added to section 80-4.3 of the Regulations of the Commissioner of Education, as submitted, effective October 26, 2010, as an emergency action upon a finding by the Board of Regents that such action is necessary for the preservation of the general welfare to provide institutions with sufficient notice of the new program registration and certification requirements for the special education generalist adolescence certificate and to provide candidates with sufficient time to complete the certification requirements for the special education certificate titles in grades 5-9 and the special education specialist certificate title in grades 7-12 before the Department phases out individual evaluation of these certificate titles.

Timetable for Implementation

If adopted at the October 2010 meeting as an emergency measure, the proposed amendment will become effective on October 26, 2010. It is anticipated that the proposed amendment will come before the Board of Regents for permanent adoption at its January meeting. If the proposed amendment is adopted as a permanent rule, the proposed amendment would become effective February 2, 2011.

STATEMENT OF FACTS AND CIRCUMSTANCES WHICH NECESSITATE EMERGENCY ADOPTION

The proposed amendment requires all registered teacher education programs to include a minimum of three semester hours in educating students with disabilities to ensure that all teachers are better prepared to skillfully collaborate with other teachers and to teach students with disabilities and defines what the three semester hour requirement shall include. The proposed amendment also requires that 15 of the 100 clock hours of field experience required for teacher education programs focus on students with disabilities and that 6 of the 40 clock hours of field experience for Transitional B programs focus on students with disabilities.

The proposed amendment changes the current certification structure for students with disabilities certificates for grades 5 through 9 and 7 through 12 and the registration requirements for programs leading to certificates in these areas. Candidates will no longer be able to enroll in special education teacher preparation programs that lead to students with disabilities (grades 5-9 generalist) and students with disabilities (grades 5-9) and (grades 7-12-specialist) certificate titles after February 1, 2011. A new students with disabilities (grades 7-12- generalist) certificate title will also be created. For candidates seeking this certificate, the candidate will be required to complete six semester hours in mathematics, science, English language arts and social studies within their content core and have sufficient pedagogy to teach these subjects. Teachers holding this certificate will be eligible to be employed to teach in supportive roles such as consultant teachers, resource room service providers and integrated co-teachers.

Teachers holding the new students with disabilities (grades 7-12- generalist) will also have the option of obtaining an extension to this certificate, to authorize the teacher

to be employed as the special class teacher of students with disabilities in a specific subject area, upon the completion of certain requirements. To obtain an extension in a specific subject, the teacher shall complete 18 semester hours of study or its equivalent in the subject area of the extension sought. For social studies, the candidate shall complete the 18 semester hours through a combination of study in United State history, world history and geography. This, coupled with passing the content specialty test in the specific subject area, will allow candidates to earn an extension to the base certificate to permit the teacher to be employed as the special class teacher of students with disabilities in that subject in the developmental level of their base certificate. Any district or BOCES that employs a candidate holding this extension must provide weekly collaboration between a certified general education content specialist in the subject area of the extension and the teacher holding the extension, with at least one period per month co-taught by both teachers. The length of the required weekly collaboration and co-taught lesson will be defined at the local level.

Schools enumerated in article 81, 85, 87, 88 or 89 of the Education Law or a special act school district that educates only students with disabilities and who cannot meet the regulatory requirement for collaboration and co-teaching for their employed special education teachers, must submit a plan acceptable to the Department with a description of the mentoring and collaboration the teacher will receive.

The proposed regulation also establishes requirements for individual evaluation for the new students with disabilities (grades 7-12- generalist) certificate by requiring candidates seeking a certificate in this area to complete, among other requirements, six semester hours in mathematics, science, social studies and English language arts and have sufficient pedagogical training to teach these subjects. The proposed amendment also phases out individual evaluation for the students with disabilities (grades 5-9-

generalist) certificate and the students with disabilities (grades 5-9) and (grades 7-12) content specific certificates by requiring candidates to apply for these certificates prior to September 1, 2011 and to complete the requirements for such certificate before February 1, 2012 to obtain certification through individual evaluation in these titles.

Emergency action at the October 2010 Board of Regents meeting is necessary for the preservation of the general welfare to provide institutions with sufficient notice of the new program registration requirements for all teacher education programs, which are effective immediately, and notice of the program registration requirements for programs leading to the special education generalist adolescence certificate for programs registered on or after September 2, 2011. Emergency action is also needed to provide teaching candidates with sufficient time to complete the requirements for the special education generalist and specialist certificate titles in grades 5-9 and the special education specialist certificate title in grades 7-12 before the Department phases out individual evaluation for these certificate titles.
