Summary

Issue for Discussion

Should the Board of Regents adopt the proposed amendment to Section 100.8 of the Regulations of the Commissioner of Education relating to local high school equivalency diplomas based upon experimental programs?

Reason for Consideration

Implementation of Policy

Proposed Handling

The proposed amendment will be presented to the Adult Career and Continuing Education Services (ACCES) Committee for discussion at the March 2011 Regents meeting.

Procedural History

The Board of Regents amended Section 100.8 of the Regulations of the Commissioner of Education in January 2008 to extend the authority of school boards to

issue local high school equivalency diplomas based upon experimental programs from January 31, 2008 to June 30, 2011.

Background Information

Section 100.8 of the Regulations of the Commissioner of Education allows school districts to award local high school equivalency diplomas based upon experimental programs approved by the Commissioner. These diplomas differ from local high school diplomas which the Board of Regents has acted to phase out under Section 100.5 of the Commissioner's Regulations.

The proposed amendment would extend, through June 30, 2012, the existing regulation that allows boards of education to award a local high school equivalency diploma based upon experimental programs. The extension will allow the continuance in New York State of the National External Diploma Program (NEDP), which is a complete assessment program that allows adults over age 21 to demonstrate and document the outcomes and transferable skills for which a high school diploma is awarded. The NEDP is a competency based, applied performance assessment system which capitalizes on an adult's life experiences and uses a practical application of learning for assessment through such methods as simulations, authentic demonstration, research projects, hands-on interviews and oral interviews. An NEDP candidate must demonstrate a job skill and the competencies that align with the skills needed to function effectively in the workplace. All competencies require a 100 percent mastery.

This one year extension is recommended to ensure that all current NEDP students in the approximately 20 program sites across the state are provided with an opportunity to complete their programs and earn a local high school equivalency diploma.

Over the next 12 months, depending on policy and direction from the Regents College and Career Readiness Working Group (CCRWG), staff will be developing proposed amendments to Section 100.7(a)(2) of the Regulations of the Commissioner of Education that will provide for the opportunity for adult students to earn a New York State High School Equivalency Diploma upon satisfactory completion of an External Diploma Program as approved by the Commissioner Education. These Equivalency Diplomas will be issued by the Department, as opposed to the local high school equivalency diploma which is issued by local school boards. This will create an additional option and pathway for adult students while phasing out the need and authority for school boards to issue the local high school equivalency diploma.

Timetable for Implementation

If the Committee agrees with the approach outlined above, it is anticipated that the proposed amendment to Section 100.8 will be presented for adoption as an emergency rule at the May Regents meeting and presented for adoption as a permanent rule at the June Regents meeting.
