Revision to Charter Authorized by the Board of Regents [P-12 (A) 1]

significant educational benefit to the students expected to attend the charter school, and the Board of Regents therefore approves the charter revision for KIPP S.T.A.R. College Prep Charter School and amends the provisional charter accordingly, nunc pro tunc to July 1, 2018. The motion passed. Regents Collins and Mittler abstained.

MOTION FOR ACTION BY FULL BOARD

MATTERS NOT REQUIRING BOARD ACTION

Senior Deputy Commissioner's Report – Senior Deputy Commissioner Jhone Ebert updated the Committee on the following initiatives.

Promoting Culturally Responsive-Sustaining Education – The Department is currently in the process of creating a framework that will serve as guidance for culturally responsive practices for educators, administrators, students, families and communities. This summer, we convened three meetings of representatives across the State. The representatives included a racially, geographically, linguistically, and culturally diverse group of current teachers, administrators, professional support staff, parents, education advocates, and higher education faculty. A second round of conversations is planned for this fall.

Diverse and Learner-Ready Teacher Initiative – New York was one of nine states invited to participate in the Chief State School Officer's Diverse and Learner-Ready Teacher Initiative in recognition of our ongoing commitment to diversity, equity, and cultural responsiveness. Our State team, consisting of diverse stakeholders from across P-20, recently represented us at a national meeting where they learned best practices and were able to share some of our work with peers from other states. A second national meeting will be held later this month.

Update on Recent Changes to State Law Relating to the Educational Stability of Students in Foster Care [P-12 (D) 1] – the Committee discussed the responsibilities of school districts for enrolling, educating, and transporting students in foster care as directed by the "Education of Children in Foster Care" law that was part of the 2018-19 Enacted Budget. Over the past eighteen months, the State Education Department has partnered with the Office of Children and Family Services, local departments of social services, and educational providers to develop guidance to implement the new federal and State laws. The new law requires, among other things, that states develop procedures to ensure that a child in foster care remains in his or her school of origin, unless it is determined that remaining in the school of origin is not in that child's best interest. The Committee also discussed a toolkit that was developed jointly by OCFS and NYSED which prepares school districts, charter schools, and local departments of social

services to meet the needs of children placed in foster care by focusing on the creation of processes and relationships between the local agencies. The Department and OCFS will be providing a statewide educational session on October 29, 2018 at Capital Region BOCES regarding the new State law and will provide an overview of the Toolkit as well.

2019 Non-State Aid Budget and Legislative Priorities [P-12 (D) 2] – the Committee reviewed and discussed non-State Aid budget and legislative proposals advanced during the 2018 budget cycle and legislative session. Committee members identified and recommended modifications to the 2018 proposals, as well as reviewed new proposals for inclusion in the Board’s 2019 State Budget and legislative priorities. The proposals will be sent back to committees as appropriate in November for further consideration and will come before the full Board in December for approval.

2018 Grades 3-8 ELA and Math Test Results [P-12 (D) 3] – the Committee discussed the results of the 2018 Grades 3-8 English Language Arts (ELA) and Mathematics Tests. In ELA, 45.2 percent of students in Grades 3-8 scored at the proficient level (Levels 3 and 4). In math, 44.5 percent of students scored at the proficient level. Due to the State’s new two-session test design and performance standards, the results cannot be compared with prior-year results. The new baseline established this year will enable comparisons with student scores in 2019 and 2020. The Committee also discussed the outcomes of the operational assessments that were offered on computers and the test refusal rate.

Your P-12 Education and ACCES Committees held a joint meeting on October 15, 2018. All members were present, except for Regent Cottrell and Regent Norwood, who were excused.

As part of this collaborative effort, ACCES-VR and OSE have been working on a joint agreement to: strengthen shared efforts to prepare students with disabilities for successful community work experiences, careers, and independent living; outline a collaborative framework for coordinating State and local services and resources; and, provide guidance for coordinating plans, policies, and procedures developed to facilitate the transition of students with disabilities from school to post-school activities, including the receipt of vocational rehabilitation services leading to employment. Due to the success of the initial pilot, work is currently underway to release a new Request for Proposal to expand the project to a total of five District Offices.

The Committee was provided with an update on this year's activities. The Department is sponsoring eye clinics for students in Schenectady, Camden, Amsterdam, and Rome. As with last year's inaugural event, the clinics are a Department partnership with VSP Global, the New York State Optometric Association, and the New York State Society of Opticians.
