Completed Audits

The Internal Audit Workgroup reviewed the 17 audits that are being presented to the Committee this month. Fourteen audits were of school districts, 1 was of a special education services provider, 1 of a program administered by the Department and 1 of New York City Department of Education awarding of vendor contract.

2014 Fiscal Report

Our Chief Financial Officer briefed the Members on the Fiscal Report for March. Extensive spending controls continue for all funds. General Fund spending reflects the amounts appropriated in the 2013-14 enacted budget. General Fund accounts are in structural balance with the exception of the Tenured Teacher Hearings (TTH) account. The 2013-14 budget includes a \$6 million appropriation for TTH claims, an increase of \$2.2 million from the prior year. With these additional funds, the deficit at the end of 2013-14 is projected to be \$880,000. Special Revenue accounts are all in structural balance on a current year basis and the accumulated negative balance in the Cultural Education Account is being reduced by approximately \$3.7 million.

The Regents Task Force is charged with reviewing current regulations as they pertain to, and are applied to, the evaluation of degree programs when provided in a distance education format, a competency-based, rather than credit-based, model or when they involve external partnerships in the development of the degree program. P-12 EDUCATION

Your P-12 Education Committee held its scheduled meeting on April 28, 2014. All members were present.

ACTION ITEMS

for material changes and to ensure that the emergency rule adopted at the March Regents meeting remains continuously in effect until it can be adopted as a permanent rule.

Prohibition of Standardized Testing in Prekindergarten Programs and Grades K-2
[P-12 (A) 2]

Promotion and Placement Determinations [P-12 (A) 3]

Your Committee recommends that subdivision (II) of section 100.2 and section 104.3 of the Regulations of the Commissioner be added and that paragraphs 100.3(b)(2) and 100.4(b)(2), and subdivision 100.4(e) be amended, as submitted, effective April 29, 2014, as an emergency action upon a finding by the Board of Regents that such action is necessary for the preservation of the general welfare to immediately conform the Commissioner's Regulations to Subparts B and C of Part AA of Chapter 56 of the Laws of 2014, relating to grades 3-8 ELA and mathematics assessments and promotion and placement determinations, and student official transcripts and permanent records, and thus ensure the timely implementation of the statute.

- allow certain Focus Schools to be removed from accountability designation without requiring that the removed schools be replaced by other schools,

so that school districts and charter schools may timely meet school/school district accountability requirements for the 2013-14 school year and beyond.

Charter School for Applied Technologies [P-12 (A) 7]

Your Committee recommends that the Board of Regents finds that the proposed revised charter: (1) meets the requirements set out in Article 56 of the Education Law, and all other applicable laws, rules and regulations; (2) will operate in an educationally and fiscally sound manner; (3) is likely to improve student learning and achievement and materially further the purposes set out in subdivision two of section twenty-eight hundred fifty of Article 56 of the Education Law; and (4) will have a significant educational benefit to the students expected to attend the charter school, and the Board of Regents therefore approves the charter revision for the Charter School for Applied Technologies and amends the provisional charter accordingly. The revision includes an increase in the school's maximum enrollment from 1675 students to 2365 students, and to serve grades 6-8 in a building located within the Buffalo City School District, in close proximity to the Kenmore-Tonawanda School District, which is the district of location for the Charter School.

MOTION FOR ACTION BY FULL BOARD

Madam Chancellor and Colleagues: Your P-12 Education Committee recommends, and we move, that the Board of Regents act affirmatively upon each recommendation in the written report of the Committee's deliberations at its meeting on April 29, 2014, copies of which have been distributed to each Regent.

MATTERS NOT REQUIRING BOARD ACTION

Distinguished Educator Program [P-12 (D) 1] – the Committee discussed proposed amendments to regulations relating to the Distinguished Educator Program. New York State currently has one Distinguished Educator, Dr. Judy Elliott, who has served the

Buffalo Public Schools since August 2012. The Department has learned from the experiences of Dr. Elliott and is proposing amendments to regulations to enhance the Distinguished Educator Program. The recommended changes will:

- provide a more explicit delineation of the ways in which districts are expected to fully cooperate with a distinguished educator so as to make the work of the distinguished educator more productive and helpful to the district;
- provide that the action plan that results from the assignment of a distinguished educator be jointly developed by the district and the distinguished educator;
- allow for persons selected for the pool of distinguished educators to be able to remain in the pool and eligible for assignment as a distinguished educator for a period of more than three years so long as these persons demonstrate that they are participating in appropriate professional development; and
- allow the Commissioner to have the flexibility to reappoint a distinguished educator to multiple one-year renewal terms and be able to appoint more than one distinguished educator to serve a district, if needed.

Action on the proposed regulations is scheduled for the July 2014 meeting of the Board of Regents, following a public comment period.

Initiatives Related to Response to Intervention [P-12 (D) 2] – the Committee discussed the Department’s initiatives related to Response to Intervention (RtI). RtI is a process used to determine if a student is responding to classroom instruction and progressing as expected. Students receive instruction through a multi-tier instructional model. As students progress through the tiers, instruction with increased intensity such as smaller groups or instruction time focused on specific areas is provided. The Committee was joined by two experts on this topic: Nina McCarthy, Principal, West Street Elementary School, Geneva City School District, and Katherine A. Dougherty Stahl – NYS RtI TAC Consortium Member. Discussion focused on the RtI pilot project at the West Street Elementary School in Geneva.

Transfer High School Credit for Students in State Agency Educational Programs [P-12 (D) 3] – The Committee discussed options to expand opportunities for students to receive high school credit for work completed while the student was enrolled in an educational program operated by a State agency. In some instances students who attend educational programs operated by OCFS and other State agencies pursuant to Education Law §112 and Part 116 of the Commissioner’s Regulations are not automatically granted credit for their coursework because such facilities are not registered high schools. The proposed amendment would provide that principals of registered public high schools be allowed to grant transfer credit to a student for credit awarded while the student attended such educational programs, upon the attestation of the chief administrator that the student has met certain criteria. If approved, Department staff will work with OCFS on a Memorandum of Understanding (“MOU”) to ensure compliance with applicable laws, regulations, directions and policies regarding test security, administration and scoring as well as to ensure that OCFS annually reports to

the Department on the credits it awards annually to students. The proposed amendments will be presented to the Board of Regents at their July 2014 meeting.

Revisions to Part 154 of Commissioner's Regulations – The Committee discussed Department initiatives for English language learners. Discussion focused on Part 154 of Commissioner's Regulations and recommended changes to better serve the needs of English language learners (ELL). Following extensive feedback from the field and key stakeholders, staff presented draft recommendations to the Regents to get their endorsement to proceed with amendments to Commissioner's Regulations. It is anticipated that proposed amendments will be presented to the Regents at their May 2014 meeting.

Consent Agenda Items

The Board of Regents will take action on the following consent agenda items at their March 11, 2014 meeting.

- Protection of People with Special Needs Act (regulations)
- Regulations to provide flexibility to school districts and charter schools regarding the administration of Regents Examinations in Mathematics (Common Core) to grade 7 and 8 students.
- Registration of Non-public Schools
- Transition to Common Core-aligned Regents Examinations in Mathematics (Geometry)

P-12 EDUCATION/CULTURAL EDUCATION JOINT MEETING

Your P-12 Education Committee and Cultural Education Committee held a joint meeting on April 28, 2014. All members were present.

MATTERS NOT REQUIRING BOARD ACTION

National Core Arts Standards Revision Update [P-12/CE (D) 1] – The Committees discussed the revision of the 1994 National Standards for Arts Education which will help guide curriculum designers, teacher-training programs and federal and state policy makers in keeping arts education relevant to today's global career opportunities. The creation of the new arts standards was accomplished with input from a broad range of arts teachers, other educators, and decision-makers, including representation from several state and national professional organizations. The final review of the standards incorporated significant updates to the structure and focus, based on comments received in two previous reviews. Next steps include completion of final revisions to the standards, additions to the online documents, and continuing updates to the standards website. A web-based release of the standards is scheduled for mid-June 2014. Following the release, the Board of Regents may wish to consider adopting or adapting the new standards and determining the ways in which courses and assessments

aligned to these standards should be considered during the ongoing review of New York's college and career-ready graduation requirements. Department staff will provide periodic updates as this work progresses
