AUTHORIZATION(S):

SUMMARY

Issue for Decision (Consent)

Should the Board of Regents adopt the proposed amendment to section 100.2(ee) of the Regulations of the Commissioner of Education relating to providing flexibility for the two-step identification process for academic intervention services (AIS) for students enrolled in grades 3-8 for the 2023-2024 school year?

Reason for Consideration

Review of policy.

Proposed Handling

The proposed amendment is submitted to the Full Board for adoption as a permanent rule at the November 2023 Regents meeting. A copy of the proposed rule is included (Attachment A).

Procedural History

The proposed amendment was presented to the P-12 Education Committee for discussion and recommendation to the Full Board for adoption as an emergency rule at the July 2023 meeting of the Board of Regents. A Notice of Emergency Adoption and Proposed Rule Making was published in the State Register on August 2, 2023, for a 60-day public comment period.

Because the July emergency was set to expire on October 15, 2023, a second emergency action was necessary at the September 2023 Regents meeting to ensure that the emergency rule remained continuously in effect until it could be permanently adopted. A Notice of Emergency Adoption was published in the State Register on November 1, 2023.

Following publication in the State Register in August, the Department received no comments on the proposed amendment. Therefore, an Assessment of Public Comment is not required and no changes to the proposed amendment are needed. A Notice of Adoption will be published in the State Register on November 29, 2023. Supporting materials for the proposed amendment are available upon request from the Secretary to the Board of Regents.

Background Information

Ordinarily, pursuant to section 100.2(ee) of the Commissioner's regulations, schools are required to conduct a two-step identification process to identify those students in need of academic intervention services (AIS).¹ However, the spring 2023 Grades 3-8 English Language Arts (ELA) and Mathematics Tests were the first state assessments to measure the New York State (NYS) Next Generation Learning Standards. Because these are new tests measuring new learning standards, additional analyses and NYS educator input are necessary to establish the achievement standards (also known as "cut scores") for performance on each of the tests. These steps are taking place over the summer and results on the ELA and Math Tests are expected to be available in fall 2023.

To ensure that schools can make programming decisions and determine which students will receive AIS prior to the first day of school, the Department proposes to provide flexibility in the identification process for AIS during the 2023-2024 school year and any other year where results of the grades 3-8 assessments are not provided to schools prior to the beginning of the school year. Specifically, the Department proposes to amend section 100.2(ee) of the Commissioner's regulations to provide that schools may, but are not required to, conduct the two-step identification process for grade 3-8 students where the results of the grades 3-8 assessments are not provided to schools prior to the beginning of the school year. Those schools that do not utilize the two-step identification process may make an identification based solely on district-developed procedures applicable to all grade 3-8 students.

¹ The two-step identification process is as follows: first, all students performing at or below a certain scale score, established through a standard setting process conducted by the Department, on one or more of the State elementary assessments in English language arts or mathematics shall be considered for AIS. Students scoring at or above the scale score established by a standard setting panel and approved by the Commissioner are not required to receive AIS unless the school district determines that such services are needed. Second, districts must then use a district-developed procedure, to be applied uniformly at each grade level, for determining which identified students shall receive AIS after it considered a student's score on multiple measures of student performance.
