

TO: The Honorable the Members of the Board of Regents

FROM: Douglas E. Lentivech

SUBJECT: Designation of Regents Physician Shortage Areas (RPSAs)

DATE: January 6, 2014

AUTHORIZATION(S):

Issue for Consent Agenda

Should the Board of Regents approve the updates to the list of Regents Physician Shortage Areas as recommended by the Department of Health?

Reason(s) for Consideration

Required by State Statute.

Proposed Handling

This item will come before the full Board at its January 2014 meeting where it will be voted on and action taken.

Procedural History

The Department of Health annually recommends updates to the list of Regents physician shortage areas. These updates include modifications to the following: Health Professions Shortage Areas (HPSAs) – Primary Care Shortage Areas, Facility Physician Shortage Areas, State Facility Shortage Areas, and Mental Health Professions Shortage Areas.

Background Information

In 1987, the Board of Regents approved a system for identifying and designating areas of physician shortage. In September 1995, the Board made a decision to update the shortage area list once a year. In addition, at its September 1997 meeting, the

Board of Regents modified the system by adding a category of Mental Health Professions Shortage Areas, along with the following categories of shortage areas:

- Health Professions Shortage Areas (HPSA)

Federal Health Professions Shortage Areas (HPSAs) are used by the Federal government to identify areas of primary care physician shortages. The Federal government requires that all HPSA designations be updated every three years using the HPSA criteria. The basic eligibility criterion is the physician-to-population ratio; in addition, infant mortality, physician availability in contiguous areas, and other factors are also considered. The NYS Department of Health reviews and comments on all requests for Federal HPSA designation.

- County Non-Primary Care Specialty Shortage Areas

Counties where less than one-third of the recommended number of specialists in the 15 most common specialties are available.

- Hospital Non-Primary Care Specialty Shortage Areas

Hospitals are designated as RPSAs for non-primary care specialties as approved by the Board of Regents in 1987. In order to receive credit toward fulfillment of a service obligation, non-primary care specialists are required to devote at least 50 percent of their practice to Medicaid recipients and/or the uninsured. The most recent data available on percentages of Medicaid and self-pay days are used to identify hospitals where service-obligated specialists may fulfill this obligation.

- State Facility Physician Shortage Areas

Facilities operated by the Office for People with Developmental Disabilities, the Office of Mental Health, and the Department of Correctional Services are identified.

- Facilities Providing Services to Special Populations Shortage Areas

Facilities are designated as serving special populations identified by the Regents as experiencing special barriers to health care.

- Mental Health Professions Shortage Areas

Mental Health Professions Shortage Areas are counties identified as having less than one-third of the recommended number of mental health professionals and specific areas and facilities designated by the federal government.

The Department of Health has recommended the attached updates to the list of approved Regents physician shortage areas. Attachment 1 consists of those recommended amendments to the various categories of shortage areas.

Recommendation

The Regents should approve the changes in the lists of designated physician shortage areas described in Attachment 1 with an effective date of January 1, 2013.

Timetable for Implementation

The changes to the list of designated physician shortage areas will be effective January 1, 2013.

**GENERAL INFORMATION REGARDING
REGENTS-DESIGNATED SERVICE SHORTAGE AREAS (RPSAs),
COUNTIES, AND CENSUS TRACTS
IN NEW YORK STATE**

How to use the Regents Physician Shortage Area (RPSA) Listing

Primary Care Regents Physician Shortage Areas by County: This section, one of several within the book applicable for primary care physicians, is applicable to *primary care physicians only*, and lists shortage areas by Service Area and Population Group within the indicated county.

Examples: To be eligible for any program for which Regents shortage areas pertain:

1. A primary care physician working in Bronx County (Borough) and practicing in the Morris Heights area would have to be working in a census tract (C.T.) (e.g., 53.02, 235.01, 237.01, etc.) listed in this section. To identify the C.T. of a practice site address, you can go to the following website: <http://www.ffiec.gov/Geocode/default.aspx>. Enter the address of the site. Click on “search” and note the “Tract Code.” If the address is located in an underserved area, the C.T. number will be listed in one of the Service Areas or Population Groups in the appropriate county.
2. A primary care physician working in Clinton County would have to work within the Service Area of Greater Clinton County in the towns of Au Sable, Beekmantown, Black Brook, Champlain, or Chazy, for example, *or* provide services to a Low-Income population group in the town of Altona, Clinton or Ellenburg.
3. A primary care physician would have to work in listed facilities (e.g., Metropolitan Correctional Center in New York county), which are applicable for primary care physicians only, as indicated within the appropriate counties.

Facilities Eligible for Primary Care and Mental Health Shortage Area Designation by County: This section lists individual facilities, by county, applicable for either primary care *or* mental health physicians.

NY State Operated Facilities Designated as Regents Physician Shortage Areas for Primary Care Physicians and Psychiatrists: This section lists New York State facilities applicable for either primary care physicians *or* psychiatrists.

Additional Facilities Designated as Primary and Non-Primary Care Shortage Areas for Service to a Special Population: This section is applicable to both primary and non-primary care physicians.

Non-Primary Care Shortage Areas by County: This section is applicable only to non-primary (specialist) physicians who have incurred, and seek to repay, obligated service under the Doctors Across New York Loan Repayment or Practice Support Programs.

Hospitals Eligible for Primary Care and Non-Primary Care Shortage Area

Designation: This section is applicable to both primary and non-primary (specialist) physicians who have incurred, and seek to repay, obligated service under New York State Regents Physician Loan Forgiveness Award Program.

Regents Psychiatric Shortage Areas: This section is applicable to **psychiatrists** who have incurred, and seek to repay, obligated service under New York State Regents Physician Loan Forgiveness Award Program.

NOTE TO PRIMARY CARE PRACTITIONERS AND PROVIDERS

The National Health Service Corps loan repayment program is available to primary care physicians, nurse practitioners, physician assistants and midwives interested in serving in federally designated underserved communities in New York State. For more information about the National Health Service Corps, call 1-800-221-9393, or visit the following website: <http://nhsc.hrsa.gov/>

For information about federally designated shortage areas eligible for federal scholarship and loan repayment programs, visit the following websites:

<http://hpsafind.hrsa.gov/>

<http://datawarehouse.hrsa.gov/GeoAdvisor/ShortageDesignationAdvisor.aspx>

NOTE: Entries that are double-underlined are proposed additions; strikeouts indicate proposed deletions for 2014.
