ADULT CAREER AND CONTINUING EDUCATION SERVICES (ACCES)

ACTION ITEM

Workforce Innovation and Opportunity Act (WIOA) Combined State Plan 2-Year Update – Your committee recommends that the Board of Regents approve the 2-year update of the Workforce Innovation and Opportunity Act Combined State Plan. The update to this Plan reports on progress, and identifies strengths and challenges. Within the ACCES-VR component, the most significant change for the updated Plan is replacement of the comprehensive needs assessment data. In 2017, Cornell University conducted a new needs assessment and the results of that project have replaced the old information. As appropriate, other outdated data was replaced to reflect 2017 information. For the Adult Education component, WIOA Title 2 funds will be competitively rebid, reflecting new instructional approaches such as integrated education and training and career exploration. For the first time, applications will be reviewed by New York's 33 Local Workforce Development Boards for alignment with their dedicated plans that address access and service to out-of-school youth and adults who are basic skills deficient in literacy or English Language or lack a High School Equivalency diploma. Every funded program will have a single point of contact for workforce referrals and establish career pathways.

With the support of the Board of Regents, ACCES will continue to identify opportunities to improve and expand collaboration with partners in the workforce development system.

The Evaluation and Assessment Workgroups will examine both the elements of the current system that are working well and should be maintained, as well as the potential changes that are needed to the existing system. (Both paths will be inclusive of practitioners from the field and representatives from stakeholder groups.) Also discussed was the work of a technical assistance provider that will work with the Department to conduct Student Learning Objective (SLO) workshops.

The Committee was also updated on the survey that was released to the field on February 6, 2018 to begin a collaborative conversation with teachers, school leaders, and district administrators on revising New York's current APPR system. The survey was designed to collect feedback from educators in the following areas:

- The overall purpose and appropriate use of evaluation to support continuous improvement;
- School-based factors educators believe they have an influence on;
- The inclusion and relative weight of different types of evaluation measures; and
- The frequency and number of instances of each measure.

The results of the Commissioner's initial APPR survey will be provided to Workgroup members. Workgroups will meet regularly over a year's time to formulate additional questions that need to be probed with the field. The Department will organize focus groups, electronic surveys, and regional meetings to gather additional information.
