Types of Simulation Activities

Formative

Experiential
Activities

Scaffolding

Complexity increases
with program
progression

Modalities

Skills development,
simulations,
standardized patient, VR

Competencies

Ensuring safe
practice

Summative

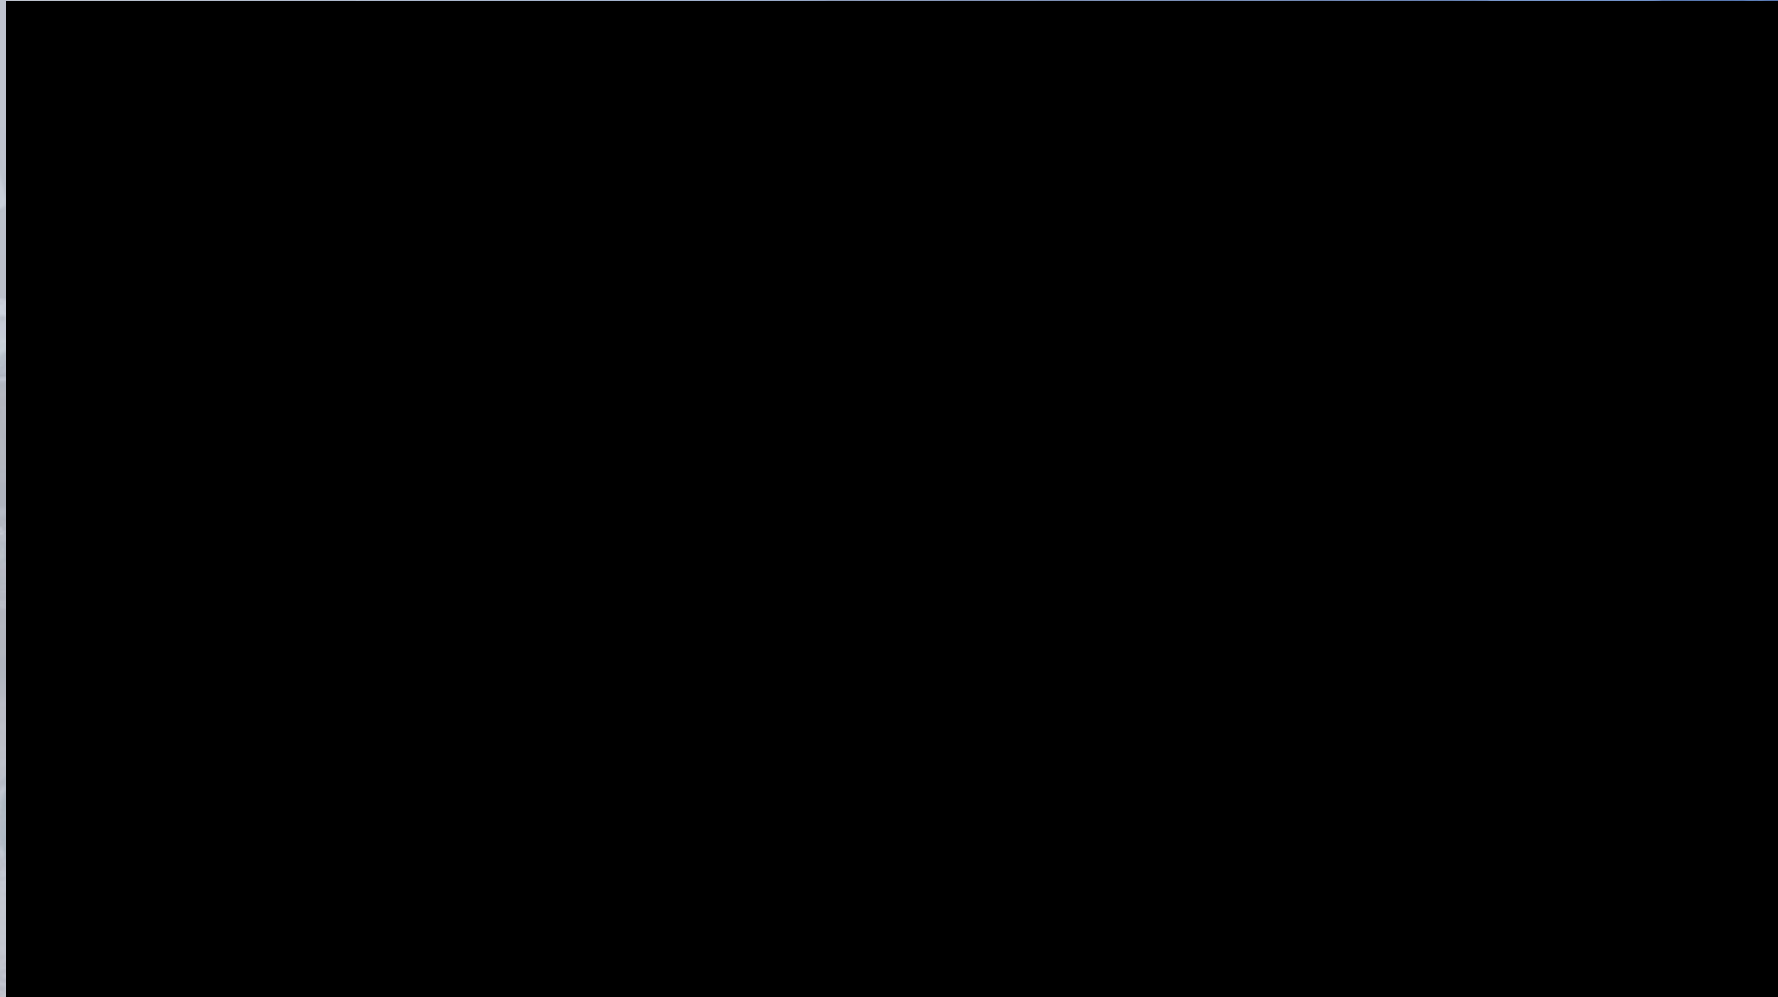

Demonstrates
mastery of essential
material

High Stakes

Passing is necessary
for progression in
program

Space, Equipment, and Technology

Simulation Best Practices

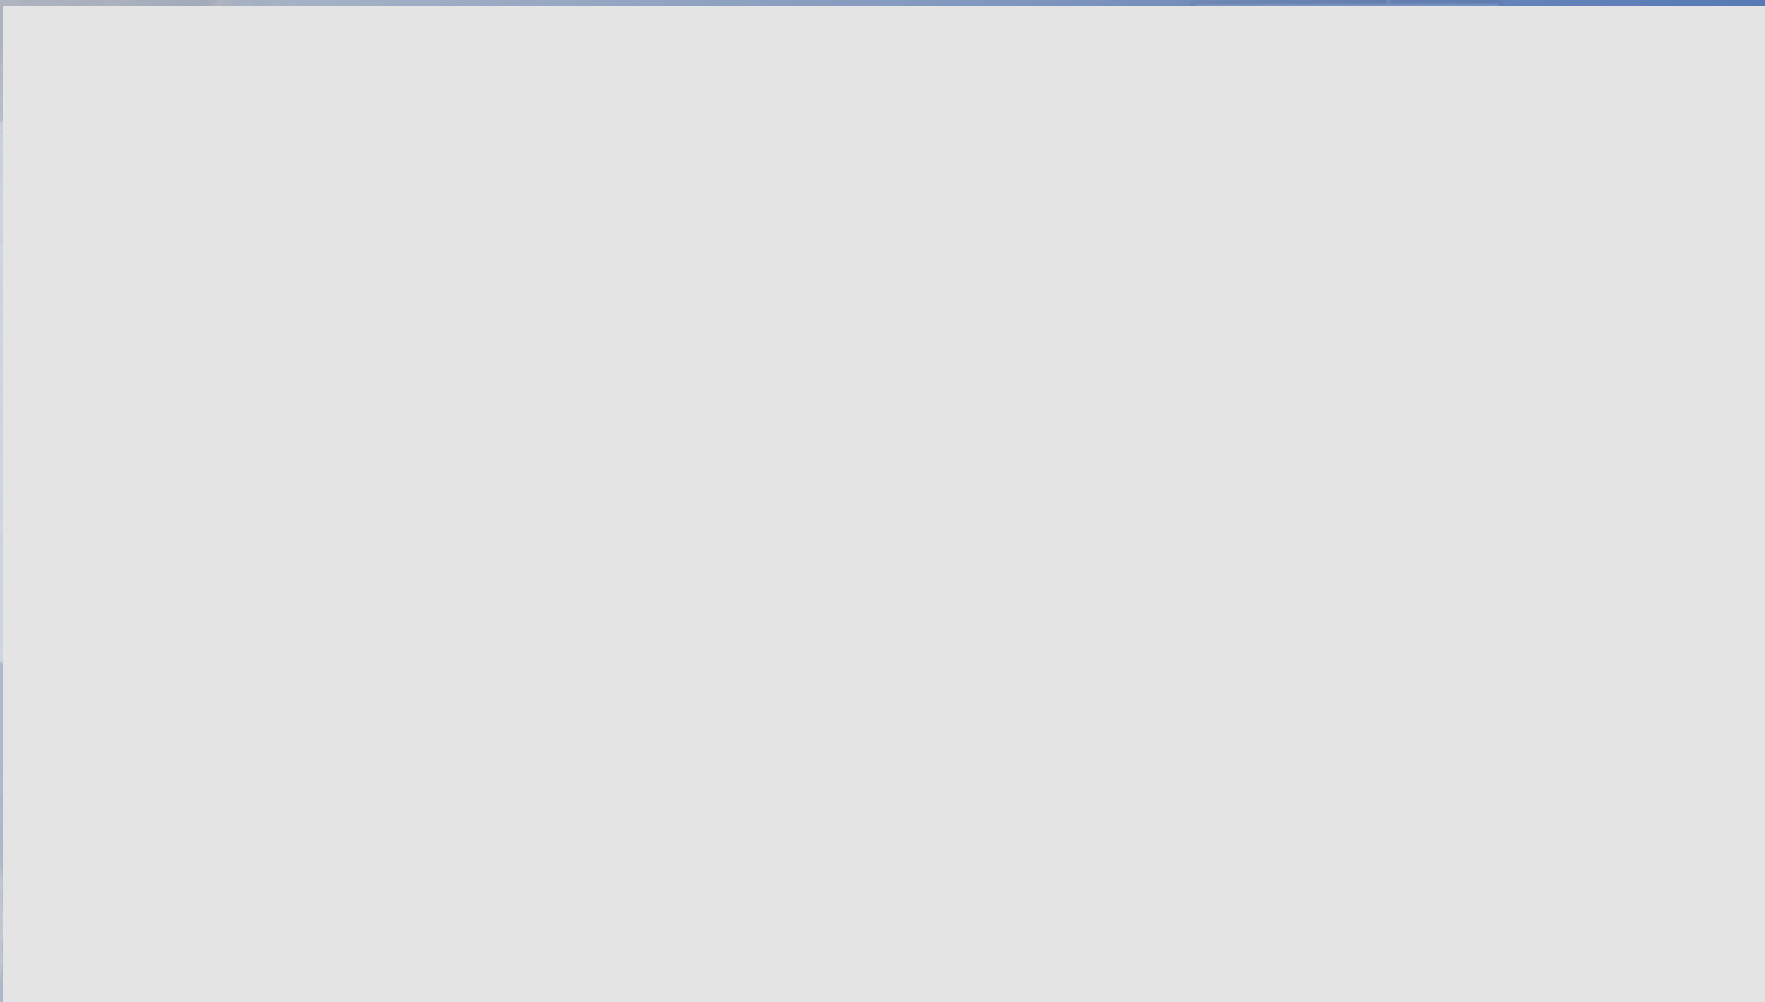

Activity Components:

- Prep Work
- Prebrief
- Activity
- Debrief

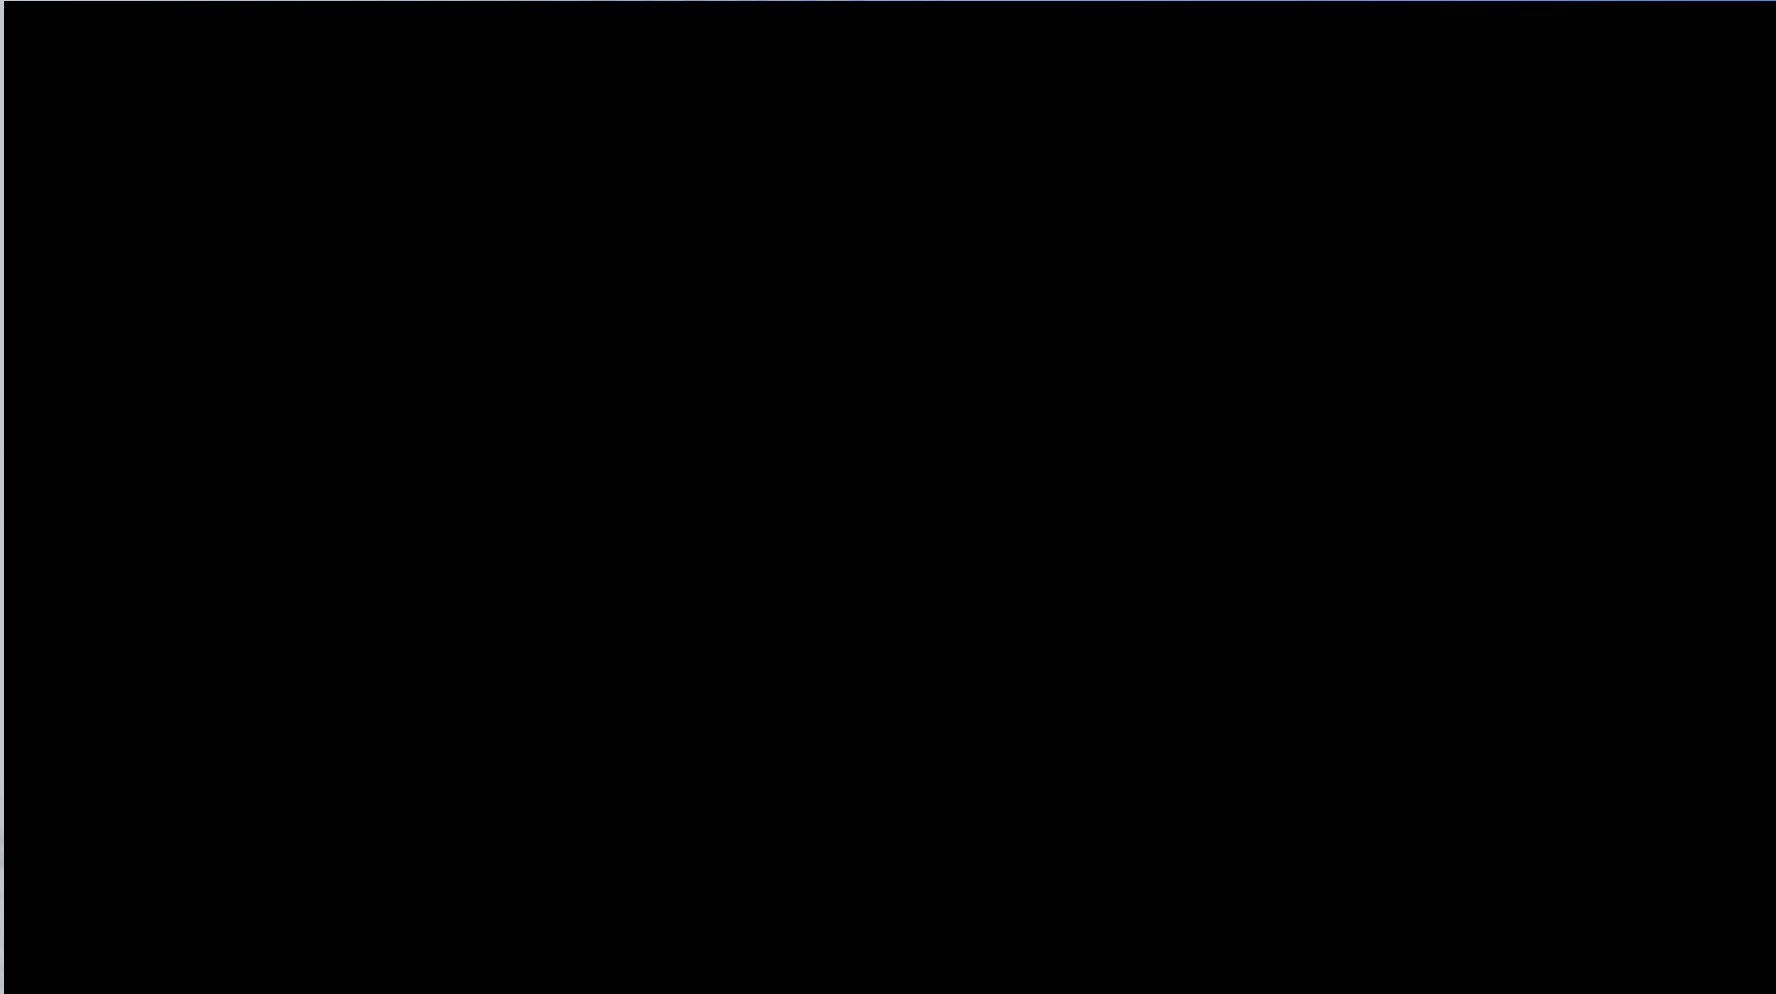

Staffing:

- Simulation faculty
- Faculty content experts
- Simulation technicians

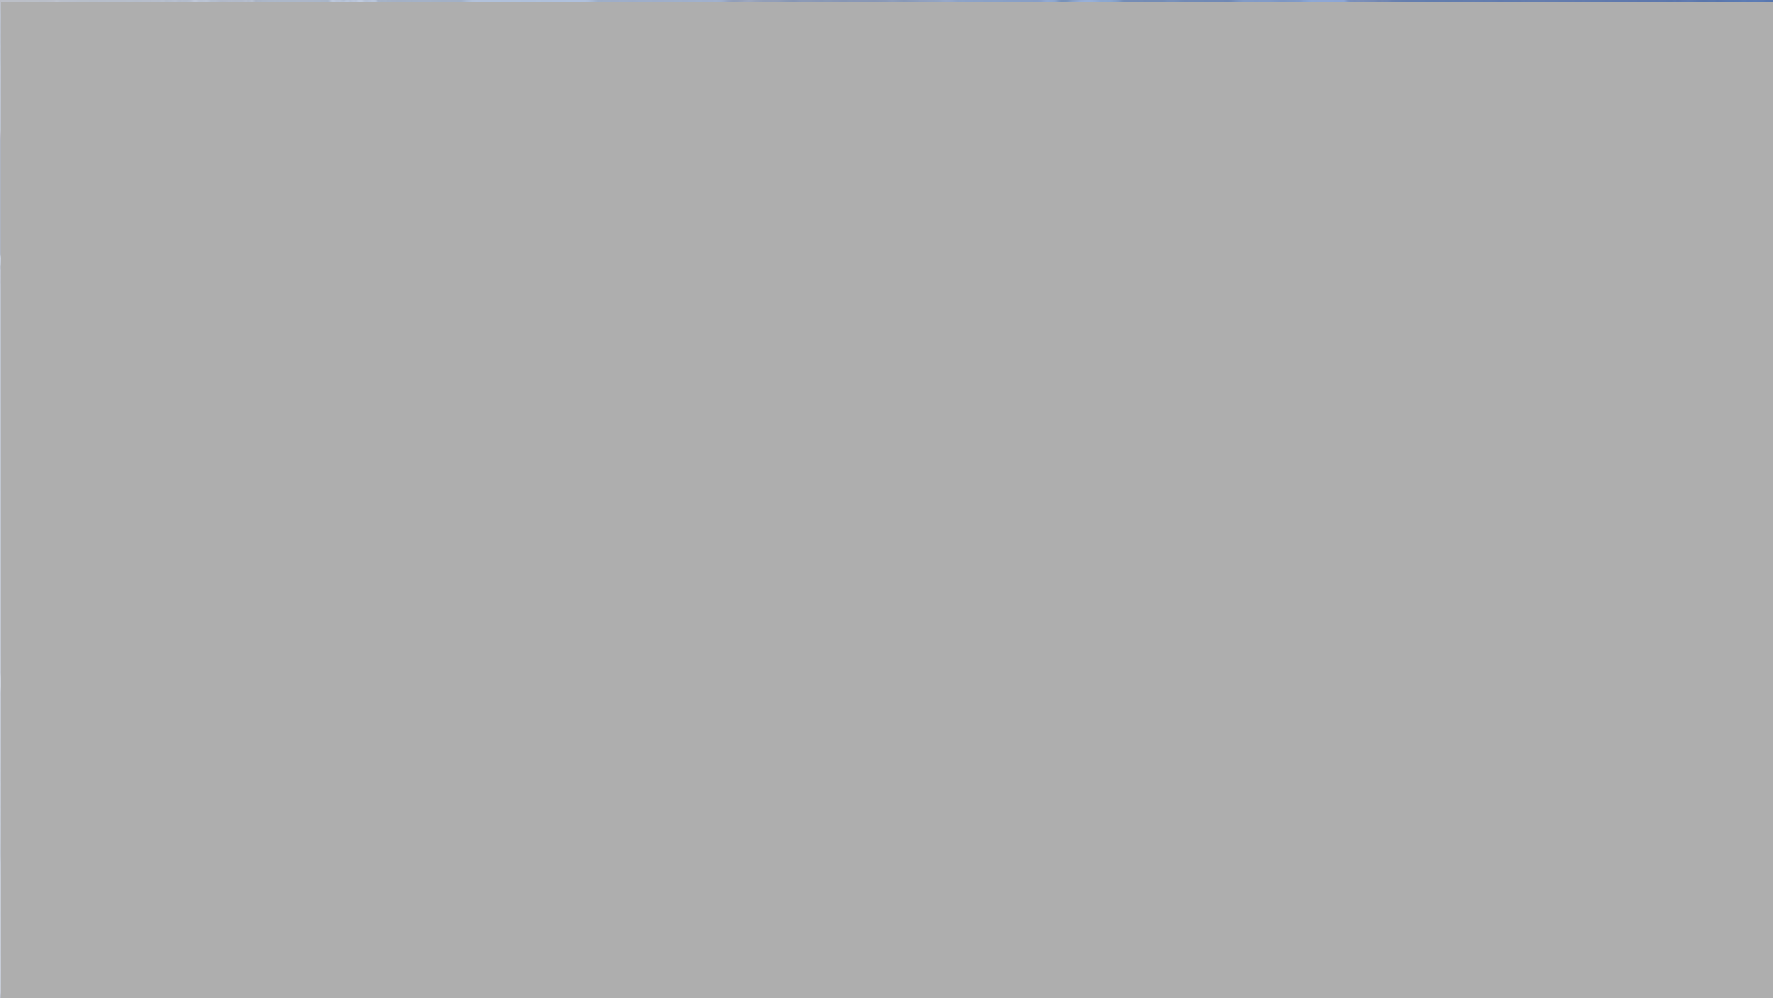

Prebrief

Simulation Experiences Montage

Debrief

WE BELIEVE THAT ALL PARTICIPANTS ATTENDING ISPC ACTIVITIES
AND EMPATHETIC INDIVIDUALS STRIVING TO PROVIDE EXCELLENT

BASIC ASSUMPTION

THANK YOU!
